

Crystal Data: Triclinic. *Point Group:* $\bar{1}$. As complex prismatic crystals elongated along [032], to 1.5 mm. Of the 20 pinacoids identified, $\{\bar{1}32\}$, $\{\bar{2}21\}$ {100} and $\{\bar{1}10\}$ are dominant, yielding a bricklike shape. *Twinning:* Uncommon by an unresolved twin law.

Physical Properties: *Cleavage:* On {100}, good; traces of a second one on {001}. Hardness = ~ 2.5 D(meas.) = 5.98(2) D(calc.) = 6.044

Optical Properties: Transparent to translucent. *Color:* Sky-blue. *Streak:* Pale blue. *Luster:* Vitreous to resinous.

Optical Class: Biaxial (-). *Pleochroism:* Weak. *Dispersion:* $r \gg v$, very strong. $\alpha = 1.871(5)$ $\beta = 1.909(5)$ $\gamma = 1.927(5)$ 2V(meas.) = 67(1)° 2V(calc.) = 68°

Cell Data: *Space Group:* $P\bar{1}$. $a = 5.791(1)$ $b = 7.940(1)$ $c = 7.976(1)$ $\alpha = 112.02(1)^\circ$ $\beta = 97.73(1)^\circ$ $\gamma = 100.45(1)^\circ$ $Z = 1$

X-ray Powder Pattern: Susanna mine, Scotland.

3.60 (10), 3.41 (9), 5.55 (7), 2.80 (7), 4.32 (6), 2.07 (6), 3.30 (5)

Chemistry:

	(1)	(2)
SO ₃	13.3	13.50
PbO	74.5	75.25
CuO	7.8	6.70
H ₂ O	[4.4]	4.55
Total	[100.0]	100.00

(1) Susanna mine, Scotland; by electron microprobe, H₂O by difference, presence of (SO₄)²⁻ and (OH)¹⁻ and absence of H₂O confirmed by IR, corresponds to Pb_{3.98}Cu_{1.17}(SO₄)_{1.98}(OH)_{6.08}.

(2) Pb₄Cu(SO₄)₂(OH)₆.

Occurrence: Of rare occurrence in the oxidized portions of some Pb–Cu sulfide deposits.

Association: Caledonite, linarite, leadhillite, susannite, elyite, lanarkite, galena, chalcopryrite.

Distribution: From the Susanna mine, Leadhills, Lanarkshire, Scotland. At the Llechwedd Helyg mine, Tir-y-Mynach, Dyfed, Wales. In the Driggith mine, Caldbeck Fells, Cumbria, England. From the Virneberg mine, near Rheinbreitbach, Rhineland-Palatinate, and at Ramsbeck, North Rhine-Westphalia, Germany.

Name: Honors Dr. Tzong T. Chen (1942–), mineralogist at the Canadian Centre for Mineral and Energy Technology (CANMET), Ottawa, Canada.

Type Material: Technical University of Vienna, Vienna, Austria; University of Stuttgart, Stuttgart, Germany, NM14; Royal Ontario Museum, Toronto, Canada; National Museum of Natural History, Washington, D.C., USA, 160384.
